Elk Lodge, A. Y. M.

Stated meetings of Elk Lodge will be held at their hall on the second and fourth Tuesdays of each month.

Temple of Honor and Temperance.

Blitzen Temple No. 81, meets on each alternate Thursday, at their Lodge Room, on Main street, over J. V. Houk's store.

Car Time at Ridgway.

Table with car times: Erie Express East, 2:20 a. m.; do West, 2:20 a. m.; do Mail East, 4:52 p. m.; do do West, 10:03 a. m.; Local Freight East, 7:25 a. m.; do do West, 6:49 p. m.

T. B. COBB, of Tionesta, was in town last week.

SCHOOL commenced in the new school house yesterday.

THE Commissioners of Elk county will meet at their office in Ridgway, on Monday, July 3d, 1871.

THERE will be services in Grace Church next Sunday, morning and evening, by Rev. J. A. Doors.

METHODIST services in the Court House next Sunday, morning and evening, by Rev. C. M. Heard.

ELKTON Temple of Honor No. 81 will meet, this evening, at their Lodge room over J. V. Houk's store.

LAST Friday and Saturday there was heavy showers of rain here. But the long-looked-for flood failed to put in an appearance.

B. F. ELY has commenced the erection of a barn at Elk Creek Mill, which is to be when completed, forty feet wide by forty-eight feet long.

THE new Board of School Directors is composed of B. F. Ely, O. B. Grant, Nelson Gardner, Horace Little, John Brydley, and J. V. Houk.

C. W. BARRETT, of the Gazette, was in our sanctum last Friday, and had on a new suit of clothes. That fire in St. Mary's destroyed a clothing store.

NO PAPER NEXT WEEK.—There will be no paper issued from this office next week; it being the week of the Fourth our hands intend to celebrate.

HATS.—The latest thing on gen's hats, is a paper wind-mill that keeps a current of cool air constantly passing over the face. An attachment can be adjusted to the lower jaw by which a man can get away with more boarding-house hash at one meal than during a week by the old process.

TO BE EXPOSED.—It is said that those highly virtuous individuals who send money to the New York "sawdust swindlers" in the hope of receiving a return of counterfeit money are likely to come to grief. Their letters are to be retained and opened at the New York post office, and the name of the writer forwarded to the post master where written, with instructions to post it conspicuously in the office with a statement of the facts. The idea is a good one, and if carried out, some rich developments may be expected.

SMALL POX.—A physician in Sioux City, Iowa, uses an ointment made of charcoal and lard to prevent pitting in small pox. This is applied freely over the surface of the face, neck and hands as soon as the disease is distinguished, and continued until all symptoms of suppurative fever have ceased. The application always allays the itching, and seems to shorten the duration of the disease, and leaves the patient without a blemish, the eruption protected by the ointment not even showing signs of postulation, the charcoal preventing the action of light and the lard that of air.

We learn from the Gazette that our neighboring town, St. Mary's, has taken steps looking to the organization of a fire department in that place, and that at a meeting held on the 19th inst., of which Charles Luhr was chairman, and Geo. Ed. Weis secretary, it was resolved that fifteen responsible citizens be appointed, who in conjunction with the Town Council of the Borough to constitute a Fire Department. The Chairman then appointed a committee with instructions to report progress before a public meeting to be called by them. This action speaks well for St. Mary's. How many fires will it take to cause Ridgway to take similar action?

In another column will be found a call issued by the Chairman of the Republican County Committee, to the Republicans of Elk County, requesting them to hold primary meetings on Saturday, July 8th, at 5 o'clock, p. m., for the purpose of choosing delegates to the County Convention to be held at the Court House in Ridgway, on Monday, July 10th, at 2 o'clock p. m. Let the members of the County Committee in each township see to it that these meetings are held, and delegates selected. Following are the names of the gentlemen composing the Republican County Committee:

- Benetize—Erasmus Morcy, J. W. Brown, Benninger—Joseph Patton, Jas. Snadden. Fox—John Collins, Abel Green, Highland—D. B. Anderson, Levi Ellehorst, Horton—J. S. Chamberlain, U. W. Rogers, Jay—B. A. Weed, James M. Brookins, Joseph—A. I. Wilson, J. C. Milona, Milstine—Robert Steward, Hiram Raupht, Ridgway—G. T. Wheeler, J. C. Luther, Spring Creek—L. F. Powers, Hiram Ceraman, St. Mary's Boro.—Dr. Samuel Reynolds, Charles McVean.

NOTICE TO POSTMASTERS.—Postmasters returning letters or papers addressed to persons who have moved away should explain if possible what has become of the person addressed or what is his present post office address. It is not sufficient to say that the letter or paper is unclaimed for or is not lifted. The reason of its not being taken out should also be given or, if a letter, should be sent to the proper address.

THE LATEST DODGE.—One of the recent tricks of swindlers is to send out a statement from some pretended hotel to parties stating that a friend of theirs had died suddenly at the hotel leaving valuable baggage, money, jewelry, watches, &c., and winding up by saying that all these valuables would be forwarded on the remittance of a small sum of money to pay charges. Look out for them.

SINGULAR COINCIDENCE.—The Cincinnati Enquirer says: "The anniversary of the battle of Bunker Hill was an eventful one to Mr. Vallandigham. He ran the Southern blockade June 17, 1863; reached Dayton June 17, 1864 laboring under an apprehension of renewed military arrest; and died by accidental violence, self-inflicted, June 17, 1871. It so happened that it was seven years after his return, and in a year in which the figure seven so prominently appears to mark the date."

THE REASON WHY.—The immediate cause of premature fading or blanching of the hair is an obstruction of the oil vessels which afford the coloring matter. The remote causes may be general ill health, trouble of mind, etc. Hence, in order to restore its natural color and beauty the oil vessels must be restored to their normal condition. It is on this principle that Nature's Hair Restorative is compounded, and it has proved a complete success, wherever faithfully applied. It is not a poisonous dye, consequently the effect is gradual, and in several cases two or three bottles are necessary to produce the desired result. See advertisement.

WALKING FEAT.—Weston, the celebrated walkid, has been successful in winning his wager, that he would walk four hundred miles in five days. During the last five miles both Weston and the audience were aroused to an intense state of excitement, the latter cheering almost continually, and the former winning applause by walking backwards, running, jumping, and performing many playful tricks in order to demonstrate the large amount of physical force he held in reserve. At the conclusion of the last round, he had eighteen minutes to spare.

FRED. SCHOENING, Pro.

STATE NEWS.

About 800 new wells are going down in the oil regions—sixty in excess of the number being drilled the same time in May, and 157 less than the number in process of drilling the same time a year ago.

The steel works of the Cambria Iron Company, Johnstown, are rapidly approaching completion. When in full operation at least 500 persons will find employment in addition to the 4,000 that are already employed about the iron works.

Wilkesbarre, June 22.—Some 40 miners were temporarily imprisoned in the earth yesterday by the falling in of the slope of the Empire mine, several miles from this place. All were rescued, and are expected to recover from the effects of the foul air inhaled during their confinement.

To HORSEMEN.—When your horse comes in wet with perspiration, smooth his hair with a coarse brush—a common broom is better than nothing—in the direction you wish it to lie when it is dry. The animal will feel better, and his hair will be kept in better condition.

MOTHS.—The following recipe is said to have kept out moths from a furniture warehouse for ten years past. May it do so for ten years to come: "Four of hops, one drachm; Scotch snuff, two ounces; gum camphor, one ounce; black pepper, one ounce; cedar sawdust, four ounces. Mix thoroughly, and strewn, or put in papers among the goods."

FURNITURE POLISH.—One pint of linseed oil, one wine-glass of alcohol; mix well together; apply to the cloth with a linen rag; rub dry with a soft cotton cloth, and polish with a silk cloth. Furniture is improved by washing it occasionally with soap-suds. Wipe dry and rub over with a very little linseed oil upon a clean sponge or flannel. Wipe polished furniture with silk.

CURE FOR COLIC.—Take a lemon, cut off a piece of rind, then nick the lemon so as to let in the tea with the rind—the pulp next the core; tie this on at night so that it cannot move; in the morning with a blunt knife you can pare it away to a great extent. Two or three applications of this will make a poor cripple happy for life.

TO REMOVE THE TASTE OF WOOD.—A new keg, churn, bucket, or other wooden vessel, will generally communicate a disagreeable taste to anything that is put into it. To prevent this inconvenience, scald the vessel well with boiling water, let the water remain in it until cold; then dissolve some pearl-ash or soda in lukewarm water, adding a little lime to it. Wash the inside of the vessel well with this solution. Afterward scald it well with hot water, and rinse with cold water before you use it. The reason for this is the ready combination of resins matter, with alkalies to form compounds soluble in alcohol.

LIFE.—Men who have half a dozen irons in the fire are not the ones to go crazy. It is the man of voluntary or compelled leisure, who mopes and pines and thinks himself into the mad house or the grave. Motion is all nature's law. Action is man's salvation, physical and mental; and yet nine out of ten are wistfully looking forward to the coveted hour when they shall have leisure to do nothing—the very siren that has lured to death many a "successful" man. He only is truly wise who lays himself out to work till life's latest hour, and that is the man who will live the longest, and will live to most purpose.

HOOKS AND EYES.

What do great liars do when they die?—They lie still.

Senator Wilson was the first to use the phrase "The New Departure."

The latin word for woman is "mulier." No wonder that the female sex is so obstinate.

A student in a Western college is so addicted to tardiness that he is known as "the late Mr. Tompkins."

One hundred millions of glass chimneys for lamps are annually broken in the United States.

Learning is wealth to the poor, an honor to the rich, an aid to the young, and a support and comfort to the aged.

A history of tobacco will shortly be published. It will be illustrated with fine cuts; you can buy it if you chew.

The nerve which never relaxes, the eye which never blanches, the thought which never wanders; these are the masters of victory.

The poet says: The pleasure of pleasures, the greatest of all Panacea for winds that are sick, is to sit in the shade near a big stone wall and whistle a soft pine stick.

It is a most significant fact that since the war the public debt of the United States has been reduced as much as the debt of England was reduced in fifty-five years.

No shade of violet ought ever to be used in any sort of evening dress, as the color vanishes entirely under an artificial light. Many a young lady has suffered for not remembering this.

A garden well kept, with the flowers well tended, and the beds, borders and walks neat and clean, is always indicative of industry and good taste in a good family.

Another method has been found to kill the potato bugs now doing so much injury in the west. It is very simple, being merely soap suds and soda, in the proportion of three pounds of the latter to a barrel of the former. The liquid is sprinkled on the vines from a watering pot, and it is said to be instant death to the troublesome insects.

An old Connecticut lady, who was very much troubled by the prospect of the introduction of gas in her village and consequent demise of whale oil, asked with much earnestness, "What is to become of the poor whales?"

Two little school girls were lately prattling together, and one of them said, "We keep four servants have got six horses and lots of carriages; now what have you got?" With quite as much pride the other answered, "We've got a skunk under our barn."

Printers' ink is being extensively used to keep grubs off trees. The relation of printers' ink to grub has long been known to editors, as it has been successfully used by them as a means wherewith to get their grub. Some advertisers discovered this use likewise.

As an evidence of the wonderful expansion of Methodism in America, the church organ states the fact that during the past year there was a new church completed, on the average, every three working hours, or four for every day in the year.

It is the opinion of the leading market men of New York city, who have just returned from a prospecting tour in Delaware and New Jersey, that the peach crop in those sections will be a good one, much better than it was last year.

The peach was originally a poisoned almond. Its flesh parts were used to poison arrows, and the fruit was for this purpose introduced into Persia. The transplantation and cultivation, however, not only removed its poisonous qualities, but produced the delicious fruit we now enjoy.

The editor of a Bangor, Maine, paper says he recently saw a number of young ladies enter a public hall with disheveled hair and hats apparently wrinkled, and he fancied with excited counting. "Upon inquiring what the riot was about," says he, "I imagine our chagrin when told it was the fashion."

Careful investigation shows that from one-half to one-third of the coal is left in the mines as waste, and that from twenty-five to forty per cent of that which reaches the surface is lost in breaking, screening and handling. These losses are attributed to the crushing effects of powder.

An Arkansas woman, named Emily Lord, is reported to have had nine husbands in ten years. Two died with suspicious suddenness, and three were divorced. What has become of the others is not stated. An exchange says she is misnamed, for evidently she is an Emma-Sarah of Satan.

A young fellow, who had been married for a twelvemonth, said it was all sunshine, the next twelvemonth, said it was all moonshine, and the latter period of his matrimonial career was without shine at all, except when his better half took it into her head to "kick up a shine."

A sure cure for bugs of all kinds upon plants and vegetables, is to make a thin whitewash—say a pint of slack lime to a pailful of water—and sprinkle it through a watering can over the vines. It will, without fail, kill potato bugs, cut worms, or anything of that kind.

Probably the first instance in history of a woman having been buried with military honors was that of Miss Esther Johnstone, a young English woman connected with the German ambulance service, who died recently at Chalons, and was buried with military honors by the Prussians.

"Corner loafing" with the use of abusive, indecent, or insulting language, whether addressed to any person passing upon any highway, to any other person, or to no person in particular, has been made a statutory offense in Connecticut, punishable by a fine not exceeding seven dollars.

A western journal suggests that "if the Democratic papers had only shown one-half the zeal in fighting Jeff. Davis when he was President of the rebel confederacy, that they now evince in fighting him when he is only the president of a life insurance company, they would have done the State some service."

Among the Mohammedans no lengthy legal process is necessary to divorce a wife from her husband. The "liege lord" simply says to his wife three times, "You are divorced!" and the thing is done. The wife, however, has no such power over her husband.

A member of the Legislature, from a remote and isolated district, sat listening to appropriations for repairing breaches in the canal, and finally sprang up and said, "See here, Mr. Speaker, who is this fellow, Canal, who wears out so many breaches? I've counted ten of them already, and one pair lasts me a year!"

The round figures of the railroad interest are easily learned and remembered. The whole length of all the railroads in the world is 120,000 miles. The cost of the same, is in round numbers, ten billions of dollars. Those of Great Britain are the most costly, and those of the United States the least so.

The railway system of the world is supposed to give employment to over one million persons.

In the island of Goa, near Bombay, there is a singular vegetable called "the sorrowful tree," because it only flourishes in the night. At sunset no flowers are seen, and yet half an hour after that it is quite full of them. They yield a sweet smell, but the sun no sooner begins to shine on them, than some of them fall off, and others close up; and thus it continues to flower in the night during all the year.

The best way to patch up a quarrel is to split the difference.

A conclusive argument against suicides is, that it is the height of impoliteness to give here until you are sent for.

NEW ADVERTISEMENTS

AGENTS WANTED FOR KNOTS UNTIED; Or, Ways and By-Ways in the Hidden Life of American Detectives. By officer G. S. McWatters. A narrative of 25 years' experience among Bank Robbers, Counterfeiters, Thieves, Pickpockets, Letter Dealers, Confidence Men, and Swindlers of all classes of society—discussing marked instances of diabolical vengeance and deep laid plans of mischief and outrage, and showing the modes by which they were traced out and scoundrels brought to justice. A large volume of over 650 pages; 30 full page engravings. For circulars and terms address the publishers, J. B. BURR & HYDE, Hartford, Conn. vln183.

U. S. MARSHAL'S OFFICE, W. D. of Pennsylvania, Pittsburgh, June 23d, 1871.

TO NEBRASKA, CALIFORNIA, AND KANSAS, AND THE B. & M. R. R. LANDS.

The "Burlington Route," so called, lies right in the path of the Star of Empire. It runs almost immediately in the centre of the great westward movement of emigration. Crossing Illinois and Iowa, it strikes the Missouri river at three points.

These three points are the gateways into three great sections of the trans-Missouri region. The Northern gate is Omaha, where the great Pacific road will take you to the land of gold and grapes, sunny mountains, and perpetual summer.

The middle gate is Plattsmouth, which opens upon the south half of Nebraska, south of the Platte river, a region unsurpassed on the continent for agriculture and grazing. Just here are the B. & M. Railroad lands, concerning which Geo. S. Harris, the land officer at Burlington, Iowa, can give you all information, and in the heart of them is Lincoln, the State Capital and present terminus of the road.

The Southern gate leads to Kansas, by connection with the St. Joe Road at Hamburg, running direct to St. Joe and Kansas City. The trains of the Burlington run smoothly and safely, and make all connections. It runs the best of coaches Pullman Palace and Pullman dining cars, and should you take the journey for the journey's sake alone, you will be repaid; or take it to find a home or a farm, and you cannot find either better than among the B. & M. lands, where you can buy on ten years' credit, and at a low price. vln2y1.
